

CONNECTOR CLIP FOR VERIFYING COMPLETE CONNECTION
BETWEEN A CONNECTOR AND A PIPE AND CONNECTOR
CONNECTING STRUCTURE THEREFOR

ABSTRACT

5 The connector clip for verifying complete connection includes a
connection verifying portion, more specifically, a pair of restraining portions
having an assistance structure to certainly detect incomplete connection
between the connector and the pipe. The assistance structure may be
constructed so as to remove a sealing property between the connector and the
10 pipe in incomplete connection relation with one another.
